IRVING, Texas, May 19, 2020 /PRNewswire/ -- Over the next six months, Bluefire Insurance will be providing approximately \$2.7 million dollars in rate relief to assist policyholders with the financial hardships experienced across the state.

In response to the turbulent times brought on by COVID-19, Bluefire announces a temporary rate reduction of 10% on renewal policies, effective May 15<sup>th</sup> through November 14<sup>th</sup>, 2020.

In addition, Bluefire is offering a 10% reduction to new policies issued from May 15<sup>th</sup> through August 15<sup>th</sup>, 2020. Bluefire's rate reduction is aimed at decreasing insurance costs for the entire six-month policy term, not just for a few months.

"Our mission at Bluefire Insurance is to provide exceptional service and peace of mind to all of our customers," said Andrew Shrout, President of Bluefire Insurance. "We recognize that it wasn't just our current policyholders that were impacted by COVID-19, but all residents of Louisiana. This reduction is our way of helping out those in need now, and in the months to come. We are proud to be able to help out the great state of Louisiana during this time of need."

To take advantage of these significant savings and learn more about Bluefire Insurance, contact your local Agent.
